# 2018 Corporate Governance Evaluation Results in Taiwan

## **About the “Corporate Governance Evaluation System”**

In response to the market need for enhanced corporate governance reforms, the Financial Supervisory Commission ("FSC") issued the "Corporate Governance Roadmap" in December 2013 and the new one in April 2018, aiming to accelerate the implementation of corporate governance among Taiwanese listed companies, assist them with sound development and boost market confidence. According to the roadmaps, the implementation of corporate governance evaluation is one of the major projects with the goal of investors and enterprises better understanding the performance of corporate governance by comparing the evaluation results among companies.

In 2014, the Taiwan Stock Exchange Corporation (“TWSE”) and the Taipei Exchange (“TPEX”) launched “Corporate Governance Evaluation System”, conducted by the Securities and Futures Institute (“SFI”) annually. The FSC believes this evaluation system will make companies take corporate governance more seriously, encourage healthy competition among companies and cultivate a culture that companies voluntarily improve their corporate governance.

2018 is the fifth year of the evaluation and the results have been published on April 30, 2019. This year, the industry differentiation was taken into account and the evaluation results were released both on a listing market basis and on an industry by industry basis. There were 868 from TWSE- and 686 from TPEX-listed companies evaluated in 2018. Industry differentiation was seen in three sectors, including 42 in financial industry, 151 in electronics<sup>1</sup> and 171 in non-finance and non-electronics<sup>2</sup>. The full results were disclosed starting from page 5.

## **Evaluation Indicators**

### **1. Weighting of indicator categories**

The evaluation indicators comprise the following 4 categories and 85 indicators. The categories of the evaluation indicators and their weight are shown as Table 1:

---

<sup>1</sup> with a market value of 10 billion TWD or more, by the end of 2018.

<sup>2</sup> with a market value of 10 billion TWD or more, by the end of 2018.

Table 1: Categories of Indicators and Weight

Category		Number of Indicators	Weight Assigned
I	Protecting Shareholder Rights and Interests and Treating Shareholders Equitably	17	20%
II	Enhancing Board Composition and Operation	30	35%
III	Increasing Information Transparency	20	24%
IV	Putting Corporate Social Responsibility into Practice	18	21%
	Total	85	100%
	Extra Credit Indicators	1	-
	Point Deduction Indicators	1	-

## 2. Calculation of scores

### (1) Calculating scores for a category

Scores for a category are calculated in the following manner:

$$\frac{\text{Number of satisfied indicators in the category}}{\text{Total number of applicable indicators in the category}} \times \text{category weighting}$$

### (2) Calculation of total scores

The points for all categories are summed up to obtain the total score for all categories. (The maximum possible total score for the four categories is 100 points.) Any additional points and point deductions are then added or subtracted, as the case may be, e.g., any additional points for AA indicators and A+ indicators, and any extra credit points or point deductions, to obtain the final total score.

### **Companies subject to evaluation**

Except some companies with inadequate data (listed after January 1, 2018) or met certain regulatory circumstances, all TWSE/TPEX-listed companies were covered by the Corporate Governance Evaluation System.

### **Scope of Information to be Evaluated**

The 2018 evaluations will be based on information disclosed by evaluated companies from January 1 to December 31 in 2018, including: corporate governance information posted to the Market Observation Post System (MOPS) website, in annual reports and on official company websites; corporate governance incidents that occurred during the year; information on the operations or exercise of duties at the shareholders' meetings, board meetings, and the independent directors; the supervisory records of the FSC, the TWSE, and the TPEX; and information entered by companies on the self-evaluation website.

## List of the evaluation results (in company code order)

### [TWSE listed companies]

● TOP 5%

43 TWSE listed companies were evaluated as the top 5% in 2018.
